Rules for provision of information on medical waste

Chapter 1. General provisions

1. These Rules for provision of information on medical waste (hereinafter referred to as the Rules) are developed in accordance with subparagraph 126) of paragraph 1 of Article 7 of the Code of the Republic of Kazakhstan dated September 18, 2009 “On people’s health and healthcare system”.

2. The following basic concepts are used in these Rules:

- 1) owners of waste - individuals and legal entities that handle medical waste;
- 2) specialized organizations - entities whose activities are associated with the collection, neutralization, storage, burial and disposal of medical waste;
- 3) medical waste - waste generated during the provision of medical services and medical procedures, classified by hazard class;
- 4) disposal of medical waste - operations for the disposal and destruction of waste;
- 5) medical waste management – types of activities related to waste, including the prevention and minimization of waste generation, accounting and control, waste accumulation , as well as the collection, processing, disposal, neutralization, transportation, storage (warehousing), waste disposal and other actions related to them;
- 6) neutralization of medical waste - reduction or elimination of the hazardous properties of waste by mechanical, physic-chemical or biological treatment;
- 7) disposal of medical waste - the use of waste as secondary material or energy resources;
- 8) burial of medical waste - placement of waste in a designated place for storage for an unlimited period, eliminating the dangerous effects of buried waste on public health and the environment.

Chapter 2. Procedure for provision of information on medical waste

3. Health organizations keep daily records of generated medical waste in a logbook in the form according to Appendix 5 to the Sanitary Rules “Sanitary and epidemiological requirements for health care facilities”, approved by the order of the Minister of Health of the Republic of Kazakhstan dated May 31, 2017 No. 357 (registered in the Register of state registration of regulatory legal acts under No. 15760).

4. Specialized organizations keep a logbook daily on the neutralization and (or) disposal of medical waste in the form in accordance with Appendix 1 to these rules.

5. Owners of waste in accordance with Article 296 and Chapter 19 of the Environmental Code of the Republic of Kazakhstan dated January 9, 2007 provide information on medical waste to the authorized body in the field of environmental protection in the form of an annual report in the field of medical waste management (hereinafter - the report) for their inclusion in the State inventory of production and consumption waste.
